MT. ADAMS
LIVING

Mt. Adams, there is no other.

the story

Towne Properties was formally organized in the spring of 1961 to spearhead the renaissance of Mt. Adams, a charming historic neighborhood overlooking downtown Cincinnati, the Ohio River and the Kentucky Hills.

The first major vineyard west of the Alleghenies, one of the largest observatories in the world, the famous Rookwood Pottery, and the Highland House—gateway to Eden Park via the old incline—have all called Mt. Adams home.

The industrious Irish and German immigrants who settled on the hill encouraged their artisans to practice their old-world crafts in their new world. Today, painters and sculptors, authors and actors, designers and architects all find Mt. Adams a place that fosters and appreciates creativity.

With its narrow winding streets, friendly neighbors, fine museums and eclectic collections of restaurants and pubs, you'll find Mt. Adams a unique place to call home.
